Experience

eero

Software Engineering Intern - Embedded May 2017 → Aug. 2017

- Worked on embedded software team for the eero mesh wifi router
- Designed and implemented memory use profiling tools for the router
- Improved visibility into router operation by adding tracking for network events in libraries like hostapd

Stack: C, Python, Linux

NBT Solutions

Software Developer - Data/Web Jan. 2017 → May 2017

- Researched ways of transmitting and visualizing large geospatial datasets in the browser
- Designed and implemented a Javascript library for parsing and rendering [vector tiles](#)

Stack: JavaScript, Node.js, Protobuf, PostgreSQL

Google

Software Engineering Intern - Backend @ Nest May 2016 → Aug. 2016

- Worked on backend services at [Nest](#), focusing on data infrastructure
- Architected and implemented REST API and dashboard for monitoring loading of and access to data in [GCP BigQuery](#)
- Designed and built data pipelines for log and billing data

Stack: Python, Nginx, Node.js, D3.js, Google Cloud Platform, MySQL, Bash

Mapbox

Software Engineering Intern - Data/Web Jan. 2015 → April 2016

- Developed open source JavaScript libraries like [GL-Draw](#), a drawing/editing tool for geospatial data powered by the Mapbox-GL.js renderer
- Worked with a team to develop [Mapbox Studio](#), a state of the art Cartography tool in the browser
- Contributed to open source projects like [Open Addresses](#) and developed data import pipelines for the geocoder

Stack: JavaScript/Node.js, C++, Bash, PostgreSQL, Python, AWS, WebGL

AidData

Data Management Research Assistant July 2014 → Jan. 2016

- Wrote programs to automate the quality assurance pipeline of geocoded international aid data
- Created data visualization (D3.js, matplotlib, etc.) and reports (ReportLab) of monetary flows from aid donors to recipients

Stack: Python, Node.js, D3.js

W&M Campus Recreation Center

Group Fitness Instructor Dec. 2013 → Dec. 2014

- Taught classes in Body Pump and small group series in TRX suspension training
- Exercised measures that facilitated a safe and healthy environment for all attendants

Research

- Satellite development project (TribeSat)
- Telerobotics prototyping in collaboration with NASA Langley
- Computational dynamical system analysis at The College of William & Mary

Selected Projects

- [GL-Draw](#): principal author of open source geospatial drawing/editing library
- [Robo Ops](#): wrote backend and frontend for rover operation in prototyping experiment for NASA's RoboOps
- [PioT](#): wrote a homegrown IoT kit powered by arduinos, raspberry pis and some sensors and peripherals

Technical Proficiencies

Languages: C • JavaScript/Node.js • Java • Python • C++ • Go • Bash • Julia • Matlab • SQL

Tools: Linux • Git • SVN • AWS • GCP • LaTeX • Make

Frameworks/Web Development: HTML5 • CSS3 • React.js • Redux.js • D3.js • Express.js • Django • Flask • Nginx

Skills and Interests

Spoken Languages: French • Ga • Twi • Arabic (elementary proficiency)

Interests: mathematics • soccer • running • tennis • music performance (trumpet, guitar) • poetry • visual art

Education

B.S. Applied Computational Mathematics

The College of William & Mary Aug. 2013 → Dec. 2017

- Minor in Computer Science
- James Monroe Scholar and William & Mary Scholar
- **Relevant Coursework:** Operating Systems (C, Assembly) • Systems Programming (C) • Simulation (C) • Computer Organization (C, Assembly) • Software Development (Java) • Algorithms (C/C++) • Data Structures (Python) • Programming Languages (C/C++/Perl/Haskell) • Linear Algebra • Numerical Analysis (Julia/Matlab) • Probability (R) • Abstract Algebra
- **Clubs and organizations:** Club Soccer • Sailing Team • Club Cross Country • Newspaper blogger • Students for University Advancement • Class Senator

International Baccalaureate Diploma

Stonewall Jackson High School Sept. 2009 → Jun. 2013

- Graduated in top 1% of class, summa cum laude
- National Merit Scholarship Semi-Finalist
- Varsity tennis captain • President of National Honor Society • President of French Honor Society • PWC SPARK Award Recipient
